23	44
24	42
25	40
26	38
27	36
28	34
29	32
30	30

Anglers, who finish in a tie, receive points based on a formula that adds points of the affected positions and divide the total by the number of anglers tied for the position. The resulting number represents the number of points awarded to each angler in a tie. An Angler must weigh a legal fish to register for points, and those who don't, are awarded 0 points for the tournament.
